# NEWSLETTER 12/2025

Dear customers, dear business partners,

As the year draws to a close, we would like to take this opportunity to thank you for your trust and for the pleasant and successful cooperation over the past year. Together with you, we were able to implement reliable solutions even in a challenging environment and further strengthen our partnership.

We wish you and your teams a merry and peaceful Christmas, relaxing holidays, and a successful and healthy start to the new year.

Yours sincerely,

*Matthias Vetter, Stefan Vetter und Till Würtemberger*

**We can do big too!**

On our portal milling machine, we can process plates made of non-ferrous metals and plastics up to a size of 1000 x 1500 x 20 mm!

**International Exhibition and Conference  
for Power Electronics, Intelligent Motion,  
Renewable Energy and Energy Management  
Nuremberg, 9 – 11 June 2026**

**We'll be there! Hall 4A, Booth 321**

## Donations instead of gifts

In 2025, we again decided not to give gifts to our customers and instead supported the organization Brot für die Welt with a donation of €1,000.

We also supported the Ingeborg-Herrmann-Schule Pforzheim school and the Evangelische Kirchengemeinde Keltern-Dietlingen Protestant church with transport services and donations in kind.

## Investments in quality and safety

Over the course of the year, we were able to commission two identical water pressure test systems, which we can use to test the tightness at a maximum of 16 bar and the water flow rate of the cooling plates we produce. We also commissioned a second helium leak test bench for particularly critical components that are used in clean rooms of the highest classes.

In order to be prepared for the increasing dangers of cybercrime, our entire IT system was renewed and its maintenance outsourced to an external service provider.
